

ADVENTURE!
WARSAW!

Alternative city experience

- City tours in retro vans from 70s
- City games
- Life under Communism Museum

It is all about passion

It all began in 2009 when, graduating from university, I began to discover Warsaw on my own. It turned out that there are quite amazing places in the city beyond normal reach for both tourists and residents of Warsaw. I decided to share my passion with others. I took a city guide course, I bought a 35 year old Nysa 522 van and started to show Warsaw off the beaten track...

This is how my passion was born, this is how Adventure Warsaw was created, and later a unique, the only Warsaw Life under Communism Museum. Other cities joined Warsaw and City Adventure was established.

Today, a team of creative enthusiasts is a backbone of the company. We want our guests to leave Warsaw and Poland remembering new, interesting experiences and above all, with the intention of coming back.

That is why we put our hearts into what we do, taking an individual approach to every guest, and put quality first.

We are ready for cooperation.
